

# NEW TO AUSTRALIA, STRIPT MINERAL MAKEUP

*Why do we love Stript so much? For us, it ticked all the right boxes...*

- ✓ It's literally "stripped" bare of all the synthetic preservatives, artificial oils and fragrances
- ✓ It contains the latest innovations in plant derived preservatives including Almond & Japanese Honeysuckle
- ✓ They use natural fragrances including Vanilla Bean & Sweet Almond Blossom
- ✓ The entire range, is vegan and cruelty free, they won't even use beeswax because it's from a bug!
- ✓ It looks sexy and stylish at the same time, and what you get in the jar is just as good as it looks on the outside
- ✓ The packaging is all recyclable, they use recycled paper and print with soy inks
- ✓ They strive to obtain ingredients from sources involved in the fair trade movement
- ✓ They give back to multiple charities
- ✓ It's not over priced, with a good retail mark-up for re-selling to clients
- ✓ A large range of foundation base colour to choose from
- ✓ It doesn't "melt off" your face in the heat
- ✓ Talc free natural minerals offer non-greasy, water resistant physical sun protection and a line minimizing, soft focus optical effect with no chalky appearance
