

Are you and your clients still "White from Winter"?

Then you just gotta try this

Naked Tan™

From the creators of the worlds' first 2 hour tan...

Once upon a time it was just a dream - although its grandness was yet to be known-

Naked Tan™

And so the journey began... like a seed growing and reaching upward toward the sun the idea was born to create a tanning product of the latest & greatest technology and quality. Revolutionising the tanning industry with its 2HR performance and keeping up with today's busy lifestyle. Whilst also staying true to nature and the essence of natural resources from the beginning of time. A dream product that was in formulation for over 2years before becoming what is now known as Naked Tan the 2HR tan.

The awakening of Naked Tan wash n wear 2HR tan was introduced at the 2007 International Beauty Expo in Sydney, Australia. A first time ever, release to the world, a rapidly developing tan to wash n wear in just 2HRS.

Naked Tan is a combination of natural ingredients that when applied produce and radiate the most authentic natural looking spray on tan. A tan is obtained in only a couple of hours so that your clients can continue with their lifestyles without the interruption of having to wait around for 8 or so hours.

It's not just an authentic natural tan, it's the whole Naked Tan Experience.

A beautifully photographed collection of peacock feathered goddess imagery will adorn your salon walls. You will be captivated and so too your clients with the humble beauty of Naked Tan with all the grandeur of the peacock goddess. A feeling of harmony with beauty and life will embellish you. Your clients also receive their own personal invitation to your salon to be spoilt true goddess style whilst receiving an authentic natural tan that lasts like no other. This is the ultimate Australian made spray tanning solution.

NakedTan botanical based tanning solutions ensure a timeless tan.

The finest advantages of indulging your clients with NakedTan is the infusion of its pure botanical ingredients that nourish and moisturise the skin within while a bronzed natural tan is rapidly achieved to wash 'n' wear in just 2 hrs. And will actually continue developing into a deeper tan long after the bronzer has been washed off. The finest quality DHA (Dihydroxyacetone) from Germany is used together with the botanical Erythulose.

This creates a reaction with the amino acids and proteins in the skins epidermis. A natural looking tan will develop enhancing the melanin of each individual's skin tone. This revolutionary new tanning formula reacts rapidly within the skins epidermis to deliver an even, natural tan quicker than any other tan product currently on the market and because of the active ingredients used in our formula your clients will attain a tan that will last like no other. So spoil those most important to you and introduce your clients to the luxury of NakedTan.
